A photograph of seven falcons perched in a row on a horizontal wooden beam. The birds are of various species, showing different plumage patterns including brown, white, and dark feathers. They are positioned in front of a wall made of vertical wooden planks. Above the wall, a corrugated metal ceiling is visible. The lighting is somewhat dim, creating a naturalistic setting.

Will we get to judge all the great
desserts at the CRC bakeoff for
the Nestless fundraising?

A roadkill brownie, a mythical creature with the head of a chicken and the body of a turkey, stands on a wooden log. The creature has dark, scaly feathers, a red face, and red legs. The background is a dark, wooded area with some green foliage visible on the right.
